RE: Soy Candle Fundraiser

Thank you for your interest in selling our premium hand poured soy candles. We have been making soy candles since 2004, and still believe soy candles are the best choice for candle burning. We provide organizations like yours the option of raising funds by providing a usable sustainable product at reasonable pricing.

Our 16 ounce soy candle sells for \$ 14.00 each and comes in a square mason jar, pewter lid, all cotton wicks, with a clear label on the front. If you sell 100 or more candles you keep 50% profit from each candle you sell. If you fall below 100 candles you will receive 40% profit.

I have included the actual brochure your participants will use when collecting their orders. We have included our 10 top fragrances of a variety of categories, however you may substitute a few of them with fragrances of the season, additional fees may apply.

In order to get started I have also included our fundraiser agreement form for you to complete. In trying to figure out dates, please call me so we can agree on the time frame.

We look forward to working together. I can be reached at 989-235-4501.

Sincerely,

Pamela Greenhoe

Customer Satisfaction is our number one priority!!
